EDUCATION

Tsinghua University 2022-2026
Bachelor of Engineering in Automation (GPA 3.7/4.0)

RESEARCH INTEREST

My research interests lie in robotic manipulation and robot foundation models, particularly in enabling robots to acquire generalizable manipulation skills through large-scale learning. I am interested in exploring how vision, language, and action can be integrated to support robust and adaptable robotic behaviors in complex, real-world environments.

* Equal contribution.

RESEARCH EXPERIENCE

University of California, Riverside 2025
Undergraduate Visiting Researcher, Advisor: Prof. Jiachen Li

Tsinghua University 2025-2026
Research Assistant, Advisor: Prof. Jianming Hu

ACTIVITIES

Course: Robot Dog Development, Tsinghua University
Teacher Assistant

Embodied AI Competition, Tsinghua University
Organizer

AWARDS

Outstanding Scientific and Technological Innovation Scholarship, Tsinghua University 2023

TECHNICAL SKILLS

Programming	Python, C/C++, Verilog
Tools & Frameworks	PyTorch, ROS2, Linux, Git, MuJoCo
Robot Platforms	Franka Emika Panda, Xiaomi CyberDog
